

## CobraTurn™

### Digital Turntable

MK Products introduces the new CobraTurn™ Digital Turntable, designed for durability and performance with all welding processes. Utilized on small to large weld assemblies, the CobraTurn's™ ability to rotate welding jobs makes it ideal for all applications up to the rated load capacities.

- Simple illuminated control panel, with digital display.
- Power (On / Off) and Rotation direction (CW / CCW) push button switches.
- Linear single speed control knob, with center, push button start, stop or jog functions.
- Gas ID purge through the center shaft.
- High frequency interference protection.
- Simple push knob to adjust table angle.
- Grab handle for easy tilting and transporting.
- Standard On/ Off foot switch provided, or an optional variable foot switch may be purchased.
- Heavy-duty, compact, open frame design.
- Can be easily bolted to any flat surface.
- Gas fitting and grounding lug accept common gas hose and ground terminals used in the welding industry.
- Steel frame and control panel, powder coated grey.
- Lightweight, anodized aluminum gear housing.
- Heavy-duty steel cut gears.
- Spring loaded tapered pin lock mechanism to adjust table angle.
- 9 table angle locking positions from 0-90 degrees. Custom angle lock plates may be purchased.

The CobraTurn™ comes with:  
On/Off Foot Switch  
005-0747
