MK Products Introduces the CobraTurn™ Digital Turntable For Maximum Precision and Repeatability

Irvine, CA - MK Products introduces the new CobraTurn Digital Turntable, designed for durability and performance with all welding processes. Utilized on small to large weld assemblies, the CobraTurn's ability to rotate welding jobs makes it ideal for all applications up to the rated load capacities.

With input of 120VAC at 50/60 HZ, the CobraTurn has a balanced load capacity of 300 lbs (horizontally) in the forward and reverse operating direction. The CobraTurn's new blue LED display offers 1/10th RPM digital real-time feedback and displays the turntable's speed of 0.2~10 RPM. The CobraTurn's versatility allows for an adjustable table tilt of 0 to 90 degrees, and comes supplied with an on/off foot control. Options include a heavy duty variable speed foot control, slotted 10" turntable top or a 4" ID/OD 3-jaw chuck.

MK Products is the original inventor of the Cobramatic® push-pull wire feed technology. It also manufactures aluminum welding systems, orbital tube welding systems, and rotary table-top equipment. Established in 1966, MK Products is recognized worldwide as the leader of aluminum welding systems. ###
